

I am concerned about the potential for my family's favorite radio station, K-LOVE (93.3 fm), being forced off the air due to expansion of LPFM stations. K-LOVE has been providing my home and our community with wholesome, family-friendly programming for several years now. If K-LOVE were to be displaced by an LPFM broadcaster, my children would lose the positive, encouraging music and programming that they have come to love. I believe that it is in the public's best interest to keep K-LOVE in place because of the positive, moral message provided by the station's music and programming.
